Get Ready for the Year of Family Movies

The last few years have made it difficult to make it to the movies or anything similar, and it's evident that 2022 is the year for movies and entertainment! Superheroes, animation, and even a video game film will make for the perfect outing the whole family will enjoy, no matter what movies you race to the theatre to see. Will it be *Lightyear*, *Doctor Strange*, *Puss in Boots*, or all of the above? No matter what movies your family chooses to see this year, AMC promises to make it the perfect way to spend time with your whole family. There is sure to be something that everyone will enjoy, no matter who you go with to see a movie! Take time out of your busy schedule and experience your family's next favorite film.

SPRING INTO NEW MOVIES

Spring brings us a lot of new movies to get the year started. *The Wolf and the Lion* will tug at your heartstrings when you see this unexpected group of friends work together and grow. In this new family film, a girl, a wolf pup, and a lion cub create an unstoppable trio. This spring, *Sonic the Hedgehog* gets his sequel with an all-new adventure everyone will love. With lots of action, comedy, and entertainment, this is one sequel you can't miss. Race to get your tickets and collect some rings along the way!

Following Sonic is *Fantastic Beasts: The Secrets of Dumbledore*. Join the magical adventure with this third installment and get ready to experience more magic and secrets than before. *The Bad Guys* is an animated hit, starring Big Bad Wolf, Miss Tarantula, Mr. Shark, Mr. Piranha, and Mr. Snake as they figure out that there's more to life than being bad...or is there? Take the time

out of your busy day to sit back and relax at the theatre while watching what happens outside of these bad guys' stories.

Ending off spring is two superhero landings! The next installment of the Marvel Cinematic Universe will be exciting for older children and adults alike: *Doctor Strange in the Multiverse of Madness*. Watch your favorite characters go through the multiverse as the Marvel Universe changes right before your eyes. Right after Doctor Strange is the new animated adventure from DC Comics: *DC League of Super-Pets* focuses on Superman's dog, Krypto, and a rag-tag group of shelter pets who team up to save the Justice League. Whether Marvel or DC, both of these teams will have to learn to work together with all new challenges and responsibilities.

LIGHT UP THE NIGHT THIS SUMMER

Kicking off the summer hits is *Lightyear*! Learn the story of the hero who inspired the Buzz Lightyear toy from the *Toy Story* franchise. Journey to infinity and beyond with the whole family, young and old, to relive childhood memories or make new ones. Keeping with animated movies, *Minions: The Rise of Gru* shows the backstory of Gru and his trusty minions. Make sure to pack your bananas and get ready to watch the minions steal the hit of the summer!

For the summer, Marvel returns to the lighter side of their movies with *Thor: Love and Thunder*. Get ready for the multiverse to change, and don't miss anything happening in Marvel, with endless amounts of characters joining in the new movies. Buckle up and get flying!

FALL IN LOVE WITH THE THEATRE

Though many months away, there is still anticipation for new movies, which means a lot of time to book tickets to the nearest AMC Theatre. Sit back and enjoy our comfy chairs with popcorn, or have dinner and a movie with the Dine-In option! No matter what you choose, we are excited

to make your night out as fun and enjoyable as can be. Go on countless journeys and adventures with all new movies, and make sure to join *Puss in Boots: The Last Wish* to help him restore all of his nine lives with your whole family. *Spider-Man Across the Spider-Verse (Part One)* swings into theatres this fall, so you can revisit all your favorite Spider-Men and Women, and maybe meet a few new ones, too! Whether you travel a few blocks or across several universes, AMC will make your trip worthwhile.

The Flash speeds into theatres to add his name to the DC Extended Universe. Learn all about his life in and outside the Justice League. With one more superhero movie to round out the year, *Black Panther: Wakanda Forever* will live up to the first film and keep the original Black Panther's legacy strong. If you enjoyed anything with Black Panther, Shuri, or the Dora Milage, this second film will be just as exciting for anyone to watch.

ITS-A ME: THE HOLIDAYS

It has been a fun-filled year getting to see all the different and exciting movies at your local theatre. To finish off the year is the holiday hit, *Super Mario Bros.*, based on the Mario games you know and love. Mario games are perfect family games, so it only makes sense that any kind of family will enjoy this movie, too! Enjoy this movie, watching all kinds of Mario and Luigi adventures come to life, and down your favorite holiday snack afterward.

This year is a perfect year to make memories with the whole family, young or old, and see movies that are sure to be your favorite. Experience what AMC Theatres have to offer, between the movies showing, snacks offered, and different types of viewing experiences to pick what is best for your family.
